

# SMITH LAKE RV & CABIN RESORT

Welcome to Smith Lake RV & Cabin Resort!

We are Larry and Sandy Harris, developers and owners of Smith Lake RV & Cabin Resort and we invite you to visit and learn about owning a little piece of paradise here in beautiful North Alabama. Directions are on this website and we're sure you'll enjoy the ride and the visit. No appointment is necessary, but we'd love to show you around! Or you may tour the resort in your own vehicle or park at the pool/clubhouse and use one of our golf carts.

It may be hard to imagine now, but the resort is situated on what once was a 58-acre cattle farm – the home of Brahma and Long-Horned cattle. With 40 years in the construction business, Larry long dreamed of building a planned community. Little did he know, we would develop an RV resort where people owned – instead of merely renting – space for their recreational vehicles. Having a large family ourselves, we envisioned a clean, safe, beautiful place to enjoy on this pristine lake, with numerous amenities, to be enjoyed by people and families of all ages.

Be sure to drive down the first road to your left when you enter the Resort. It leads to the boat launch, slips, a natural waterfall, pavilion and our beautifully inviting boardwalk – Sandy's favorite place on earth. Lined with majestic rock bluffs and landscaped with flowers, natural shrubs, trees and foliage, it offers a spectacular view of Smith Lake. It is a wonderful place to kick off your shoes and while some time away, so don't be in a hurry!

Phase II is now open with 66 new lots; some of which are situated on two of the three property's stocked fishing ponds. The lots with pond frontage can upgrade to include a private pier – which make these lots ideal for the fisherman in your family! Phases III and IV are in the planning stages, along with an elaborate clubhouse. As SLRvR continues to grow, we're using more of the area's signature boulders to terrace lots. The rolling topography and existing trees will add to the magnificence of these new phases.

Our owners come with their family and friends to get away from the fast pace of their daily lives. "We escape to view the stars at night instead of the city lights," one owner says. Others say they own at SLRvR to enjoy the clean country air and beautiful, deep water. Many residents enjoy riding their golf cart down country roads to take in the natural beauty and the horses, donkeys, sheep, cattle, birds, deer and occasional wild turkey.

It is our owners who make the real difference. They come from across the U.S and make the best neighbors. Great friendships have developed and they have a wonderful, unwritten rule: "You don't need an invitation to stop by and sit awhile." When our weekenders arrive on Friday afternoons, it's a delight to see them greet each other.

Because our owners are very important to us, their opinions matter. We look to them for new ideas and strive to maintain quality in everything we build – from their pads, decking, pergolas, storage buildings to the landscaping. This keeps our community first rate – comparable to some of the better developments on the Gulf. There is not a more scenic, affordable, low-maintenance resort in the Southeast...where you can own a little piece of paradise that offers such great amenities and access to a beautiful, clean lake.

*God Bless you during your travels, or as Larry would say...Happy Trails!*
